

Cows Dogs and Dirt Roads

John Burns, Bruce Carpenter, BMI

© Frogtown Music

VERSE

You used to say you loved me
And were happy to be mine
But that was long ago
And that light no longer shines
I sleep alone without you
As we share the same bed
Now our home has chilled around us
Loving words go unsaid

CHORUS

Cows dogs and dirt Roads
Are the reason I come home
The only things that miss me
Or even know that I've been gone
God knows that it ain't you
That's missing me at all
Your heart has grown as cold
As the season after fall

VERSE

The season after fall
Is the coldest time of year
The wind blows straight through you
And the nights are long and drear
The days are short and brisk
Like the times that we share
Life gets pretty lonely
When love's no longer there

Repeat Chorus

TAG

Your heart has grown as cold
As the season after fall
As the season after fall
