## VERSE

I've been in love so many times my heart is getting sore  
By the time I get hooked they show me to the door  
But now that's all over I've really got myself a plan  
I'm building me a girl in Cyber land

## CHORUS

And she's my Cyber baby and she'll always be true  
She's my Cyber baby and she'll never make me blue  
She'll never run around or tell me dirty lies  
She's always at home on my hard drive

## VERSE

Well I put her on my laptop and rock her on my knee  
She stays turned on even when I watch TV  
Yeah what ever I do, she'll always be true  
Cyber baby you're the one for me

Repeat Chorus

Well I come home at night and thank the stars above  
My Cyber baby, she's programmed for love  
There's no one to spend my money,  
I don't have to call her honey  
My Cyber Baby, she's the one for me

Repeat Chorus

## Bridge

Well she's digitalized and automated  
Rasterized not pixelated  
She's best girl I've ever dated  
Cyber baby you're the one for me

Repeat Chorus

## TAG

She's always at home on my hard drive
