

Fire In My Soul

VERSE

I've been a rambler down this road of life
I ain't done no good, or what I should
I brought trouble and strife
But now something's changing
Way down deep inside
I got no choice, when I hear that voice
I must abide

CHORUS ONE

I got a fire in my soul
Fire in my soul
Fire, fire, fire in my soul

VERSE

Now brothers and sisters
If your heart is full of woe
Hear what the Good Book said
He rose from the dead to redeem your poor soul
So quit all your sinning and hold your head up high
He said believe in me and I'll set you free
And your soul will never die

CHORUS TWO

Then you'll have a fire in your soul
Fire in your soul
Fire, fire, fire in your soul
