## VERSE

This world is not the end  
It's where we begin  
To know the Lord and hope to understand  
What God the father had done  
When he sent his only son  
Paying for the sins of mortal man

## CHORUS

In this world you have placed me  
Towards Heaven's door you have faced me  
My humble weary soul you have saved  
When I've traveled through this life  
With It's hardships and it's strife  
Precious Jesus guide me through the grave

## VERSE

The pain and shame you bore  
To make the grave a door  
The path to glory for me you have paved  
Believing is the key  
In Heaven we'll be free  
Eternal peace lies just beyond the grave

Repeat Chorus
