When the rooster's gone and you want to play  
Come on over and we'll make some hay

Yes sir ree, me oh my come on by  
Let the feathers fly

When your rooster crows at the break of dawn  
I'll slip out and I'll be gone  
Down the road and over the hill  
If you won't tell him no one will

Well up all night and sleep all day  
We'll have some fun when he's away  
The ol' chicken coop will reel and rock  
Dance the hands right off the clock
