

Nothing But Highway

Robert Mabe, BMI

© Frogtown Music

VERSE

It hurts both ways, but I still feel good
You went your way, like I knew you would
That last chold nght went roaring by
Back down that road again
That look was one not seen before
Your eyes not used to closing doors
That sting of guilt still hurts to try
You're on that road my friend

CHORUS

And I got nothin' by highway, nothin' by time
Gonna see things go my way, stop living this lie
And you think it's beter to be living this way
But nothin's gonna change your mind
I'm leavin' today

VERSE

To far to hold, but still in sight
Squandered truth in search of lies
That feeling's gone and start again
On the road that never ends

Repeat Chorus

TAG

nothin' by highway, nothin' by time
Gonna see things go my way, stop living this lie
Yeah, you think it's beter to be living this way
But nothin's gonna change your mind
I'm leavin' today
