

One Memory At a Time

John Burns, Bryan Shepherd, BMI

© Frogtown Music

VERSE

The years we spent together left some beautiful memories
From the time you said hello to the day you set me free
To keep all those would drive me insane
So to ease my troubled mind, I've come up with a plan

CHORUS

And I'm losing you one memory at a time
The whiskey works to clear my mind
One drink, one memory left behind
I'm losing you one memory at a time

VERSE

They say that most drinkers drink to forget
If there's a better way, then I aint found it yet
So pour me another, I feel a memory coming on
It'll take a lot of drinking to drink 'til you're gone

Repeat Chorus

BIDGE

The river of whiskey that I am riding on
Can't wash away the fact that I know that you're gone
At the rate I'm going and the state of my mind
I'm going to be drinking a long, long time

Repeat Chorus

TAG

I'm losing you one memory at a time
