VERSE

She got the first one when she left home
To head out on the road
It was a little bluebird to remind her of the hills of home
The next one came, when she fell in love
A bright red rose centered in a ring of thorns

CHORUS

She's a Tattooed lady, just a little bit crazy
Got a whole wide world of troubles on her back
But don't you shame her or try to change her
It's been a long hard road and there ain't no turning back

Repeat Chorus

VERSE

The third one came the first time when
She got out of rehab
A little bit of Van Goah's Starry Night
Then she found the Lord just outside of Memphis Tennessee
So Jesus Saves seemed to fit just right

Repeat Chorus

VERSE

She got the last a year back
When she had her baby girl
A little pink heart with baby Joy inside
Now she's settled down and doing all right
She thinks back, it's been a crazy ride

Repeat Chorus
