

This Country Lives in Me

John Burns, Tyler Lloyd, BMI

© Frogtown Music

VERSE

This old country's changing, I know that is true
But we still have rednecks just like me
We put the red in the red white and blue
And I don't mind working with my hands
Or sweating to earn my pay
So Saturday night can hear me howl
And Sunday can see me pray

CHORUS

Because I live in the country and the country lives in me
I'm proud to be an American and thank God that I'm free
And I'm not knocking the city boys if that's where they want to be
But I live in the county and the country lives in me

VERSE

And I have my blackberry and drive a hot sports car
But if you're calling me a city boy then son you've gone too far
And I like loving my woman underneath the Southern sky
And I'll hunt and fish every chance I get until the day I die

Repeat Chorus

VERSE

Well, there's lots of things to see traveling this old world
But none can top the sweet sweet loving of my good ol' country girl
She can put her arms around me and this world is mine to hold
Her lovn' and a good hound dog are worth more than all their gold

Repeat Chorus

VERSE

Through peace time and war time us country folks are there
Weather loving or fighting we always do our share
Our kin folk planted the roots of America's family tree
They help build this country and this country lives in me

Repeat Chorus

TAG

I said, I live in the county and the country lives in me
