VERSE

When we met I loved you so
I didn't think I could ever go
But you've been so untrue
It's goodbye baby I'm through with you

CHORUS

I'm out of here I'm gone for good
You didn't love me you never could
You can't be true oh now it's clear
It's goodbye baby I'm out of here

VERSE

We had plans for future days
You shattered them with your lying ways
You broke my heart a hundred times
So now I'm gone on down that line

Repeat Chorus

VERSE

Our friends think that our love is strong
But we both know that they're so wrong
For many years I've played the fool
But that's all over I'm done with you

Repeat Chorus
