

Now That My Baby's Gone Away

John Burns, Tim Ellison, BMI

© Frogtown Music

VERSE

The crying is over, there's nothing left to do
But to clean up old memories and dust off a few
Still the cold wind keeps blowing, but chills me to my soul
But I'll have to keep going without the heart she's stole

CHORUS

And I don't remember a colder December
Now that my baby's gone away

VERSE

Outside the snow is falling from the skies of gray
And I feel heartbreak calling every hour of the day
When I close my eyes I remember the days
To the time before she went away

Repeat Chorus

VERSE

Why God called her so young I'll never understand
Left me broken hearted and half a man
But I'll always have the memories of our happy days
Before my baby was called away

Repeat Chorus

TAG

Now that my baby's gone away
